CAUSE NO. 42550

**WIRELINE-TO-WIRELESS NUMBER)
PORTABILITY REQUIREMENTS AND FOR A)
GENERIC COMMISSION INVESTIGATION INTO)
THE ISSUES RELATED THERETO)**

You are hereby notified that on this date, the Indiana Utility Regulatory Commission ("Commission") has caused the following entry to be made:

The following specific Petitioners should answer the data requests as set out below on or before March 12, 2004.

1. Perry-Spencer Rural Telephone Cooperative

In the second data request response, Perry-Spencer has provided estimates for upgrades to their DSM-10 Switches. Please explain why the estimate for the switch in Santa Claus is significantly higher than the other switches? Nortel often quotes the price for necessary LNP upgrades as \$4.00 per equipped line. Why are Nortel's quotes significantly higher in Perry-Spencer's case?

2. NITCO

NITCO stated in the response to the second data request that it did not have complete cost estimates for LNP implementation. In the first data response, NITCO estimated \$360,000. based on a discussion with the switch manufacturer. Does NITCO expect this estimate to reduce? If not, what is unique about NITCO's network and/or switch manufacturer that has caused this estimate to be significantly higher than carriers of comparable size?

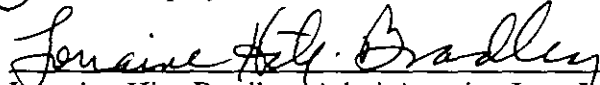

3. Sunman Telecommunications Co./SEI Communications

Cost estimates for LNP implementation have been provided for SEI Communications, but not for Sunman Telecommunications. Sunman Telecommunications has provided access line counts to the Commission, but not cost estimates for LNP. Please describe how the two companies are structured and/or interrelated. Are they considered one entity? If not, please provided updated LNP cost estimates and access line counts for each company.

IT IS SO ORDERED.

Judith G. Ripley, Commissioner

Lorraine Hitz-Bradley, Administrative Law Judge

Date: February 26, 2004

Nancy Manley, Secretary to the Commission
